FAIRMONT TREMBLANT HOTEL FEBRUARY 1 - 4, 2023

The perfect winter location! This is a unique opportunity to meet with Interventional Cardiologists from across North America and to learn about new techniques, discuss important issues and the latest controversies.

CO – DIRECTORS

Raoul Bonan, MD
Erick Schampaert, MD
James Velianou, MD

OBJECTIVES

This course is to provide the participant with emerging trends and evidence-based practices (from the past 12 months). To provide the participant with guideline-driven, contemporary approaches to cardiovascular patient care.

Upon completion of this program the attendees will be able to:

1. Identify areas for quality improvement in Interventional Cardiology.
2. Correctly interpret the coronary physiology (FFR, iFR) and the other coronary imaging (IVUS, OCT) to apply in coronary interventions.
3. Identify the best practices in the interventional treatment of STEMI.
4. Review the actual indications in Aortic Valve Stenosis, percutaneous and surgical.
5. Review the latest data in coronary intervention for Myocardial Infarction.
6. Follow the new tendency in Surgical Coronary Artery Revascularization.
7. Review the actual approaches for stenting in percutaneous treatment in Coronary Artery Disease.
8. What is new for TMVR.

PROGRAM AGENDA

WEDNESDAY - FEBRUARY 1, 2023

19:30 - 23:00 Welcome Address (Mali III)

Cocktail Reception

THURSDAY - FEBRUARY 2, 2023

07:00 - 07:30 Breakfast (Mali III)
